integ Engineering &
Trading Services

INTEGRATED TOTAL QUALITY SOLUTIONS

INTEG Engineering & Trading Services is a group of Professional Engineers and Technologists, committed to serve the fast growing needs of the industrial & commercial sector of Pakistan by providing quality services in the following fields:

- Fire Protection Systems
- Water
- HVAC (Heating Ventilation and Air-Conditioning Systems)
- Energy
- Safety & Egress

QUALITY SERVICES OFFERED :

- Assessment of Requirements
- Codes and Standard Consultation
- Technology Selection and Equipment Sizing
- Supply Chain Support
- Product Selection Options
- Basic Design Engineering
- Logistics Management
- Installation Supervision
- Managing Commissioning / Startup
- Maintenance Scheduling and Management
- Life Cycle Management

MARKET WE SERVE :

- | | |
|---------------------------------------|--|
| ● Oil & Gas | Exploration, Processing, Operations, Transportation, Retail |
| ● Power | Thermal / Combine Cycle, HFO Based, Diesel Based |
| ● Petrochemicals | Fertilizers, Chemicals, Solvents |
| ● Construction & Infrastructure | High Rise Buildings, Hotels, Shopping Malls, Ware Houses, Institutional & Residential Complexes, Military / Forces Installations |
| ● Ports | Airports, Sea Ports & Jettys |
| ● Industrial Zones | Textiles, Pharmaceuticals, Food and Automobiles |

INTEG OPERATIONS :

We are serving the industry by integrating our two divisions designed for the products and projects needs of the market.

- Project Business Unit
- Product Business Unit

PROJECT BUSINESS UNIT:

INTEG Project Business Unit has good reputation and strong contacts among the Engineering Business community of Pakistan. Local market consultants, designers, equipment stockiests, suppliers and manufacturers are very well known to INTEG Project Business Unit.

- Design
- Engineering
- Procurement
- Installation
- Commission
- Services

Professionals at INTEG Engineering & Trading Services utilize a well developed planning strategy to achieve greater customer satisfaction.

- Project Management by Project Schedule
- Conceptual & Pre-design Engineering Discussions
- Coordination with Client to avoid / remove problems during execution phase.
- Start up / Launch Services & Supports
- Develop Standards & Documentation

PRODUCT BUSINESS UNIT:

INTEG Product Business Unit has a good range of industrial products for the facilitation of our valued clients and customers. We comply with our best and reach to cost effectively supply and support the right products.

- Customer Facilitator
- Inquiry / Quote Manager
- Logistic Supporter
- Product Tracker
- Supports & Services

INTEG PRODUCT RANGE (Brand Wise) :

S. No.	Company / Brand	Origin	Product Description
1	Chemguard Inc.	USA	Fire Fighting Foams & Concentrates, Portable Equipments, Engineered Systems
2	Peerless Pumps	USA	Fire Pumps (UL/FM Approved)
3	Godwin Pumps	UK	Fire Pumps (LPCB Approved)
4	Biral	Switzerland	Multi Stage & Centrifugal Pumps, Submersible Pumps, Water Booster Sets
5	Noha	Norway	Fire Hose Reels & Cabinet
6	SRI	Malaysia	Fire Fighting Equipments & Accessories
7	Bristol	UAE	Fire Fighting Pumps, Equipments & Accessories
8	Viking	USA	Fire Sprinklers, Monitoring Devices, Valves & Accessories
9	Reliable	USA	Fire Sprinklers, Monitoring Devices, Valves & Accessories
10	Shield	UK	Fire Sprinklers, Alarm & Detection System
11	Kidde / SRI	UK / Malaysia	Fire Suppression Systems
12	Watts	Italy	Components & Systems for Heating, Air - Conditioning and Sanitary Applications
13	Potter	USA	Fire Alarm & Detection, Fire Sprinkler Monitoring Products, Electronic
14	Flexhead	USA	Flexible Sprinkler Connections, Fire Systems, Industrial Control Monitoring Products
15	Civtas	Turkey	Piping & Ducting Supports
16	Huber	Germany	Waste Water Treatment Plants (MBR Technology)
17	ENTA	Turkey	Packaged & Industrial Waste Water Treatment Plants
18	Mobiltex	Sweden	Evacuation Chutes
19	SKB	Malaysia	Fire Doors & Shutters
20	Schwab Corp	USA	Fire Protection Safes & Cabinets

INTEG PRODUCT RANGE (Market Wise) :

Pumps:

- Fuel Transfer Pumps
- Fire Pumps (UL/FM Approved)
- Fire Pumps (LPCB Approved)
- Water Supply Pumps
- Chilled Water Pumps
- Condensate Water Pumps
- HVAC Circulator Pumps
- Booster Sets
- Submersible Pumps
- Sewage Sump Pumps

HVAC:

- Cooling Towers
- Packaged Cooling Systems
- FRP & Steel Ducting Systems
- Water Protection Products
- Sanitary Products
- Air conditioning, Fuel & Gas (Components & Devices)
- Instrumentation (Pressure & Temperature Gauges)
- Electronics
- Drainage
- Ducting & Piping Supports Systems
- Energy Saver FRP Axial Fans

Valves:

- High Pressure Valves
- Gate Valves
- Globe Valves
- Check Valves
- Butterfly Valves
- Needle Valves
- Cast Steel Valves
- Forged Steel Valves

Fire Equipment:

- Fire Pumps (UL/FM Approved)
- Fire Pumps (LPCB Approved)
- Fire Pumps Packaged Sets
- Fire Sprinklers
- Fire Sprinklers Monitoring Devices
- Flexible Sprinklers Connection Hoses
- Fire Sprinklers Piping Supports (Anchors, Clamps, Threaded Rods)
- Fire Suppression Systems (Inertec, FM 200)
- Fire Hose Reels & Cabinets
- Fire Water / Foam Monitor
- Fire Hydrants
- Landing Valves
- Fire Extinguishers
- Fire Fighting Foam and Engineered Equipments
- Fire Alarm & Detection
- Fire Resistance Steel Doors

Water & Wastewater:

- RO Plants (Brackish & Sea Water)
- Waste Water Treatment Plants (Packaged & Industrial Plants)
- Sand Filtration / Multi Media Filtration Systems
- Valves & Controls
- Water Supply Pumps
- Irrigation Booster Systems

Safety & Egress:

- Emergency Evacuation Chutes
- Fire & Blast Resistance Doors
- Fire Protection Safes & Cabinets
- Personal Safety Equipments
- Industrial Safety Equipments

BRANDS WE DO:

Fire Protection, Agriculture, Industrial,
Municipal, Process Pumps
(UL / FM Approved)

Package Fire Pump
(LPCB Approved)

High Pressure Centrifugal, Submersible,
Booster Sets, Sewage Sump Pumps

Fire Hose Reels & Cabinets,
Fire Extinguishers, Offshore Products

Fire Fighting Equipments and
Pumps Packager

Fire Fighting Equipment &
Engineered Systems

Foam / Water Deluge Sprinkler
System, Devices, Valves

Fire Sprinklers and
Sprinklers Accessories

FlexHead Commercial Sprinkler
Connections

Fire Fighting Foams & Concentrates,
Portable Equipment & Engineered Systems

Fire Resistance Steel Doors and
Industrial Fire Shutters

SCHWAB CORP

Safety Equipments

Industrial Waste Water
Treatment Plants

Package Waste Water
Treatment Plants

Emergency Evacuation Chutes

INTEG IS WORKING WITH:

Fire Protection, Agriculture, Industrial,
Municipal, Process Pumps
(UL / FM Approved)

Since 1923, Peerless Pump Company has provided a wide range of industries with the highest quality pumps, packaged pumping systems, parts and service. As a recognized leader in pump design, performance and innovation, Peerless serves customers throughout the world.

- **OVER 80 YEARS OF QUALITY AND RELIABILITY**
- **HIGH QUALITY ASSURANCE**
- **ABSOLUTE DESIGN INTEGRITY**
- **METICULOUSLY CONTROLLED MANUFACTURING**

FEATURED PRODUCTS

PUMPS

- Vertical Industrial Process Pumps
- Axial and Mixed Flow Pumps for Large Volume Pumping
- Encased (Can Type) Water and Process Liquid Pumps
- Vertical Turbine Pumps for Water Supply from Drilled Wells
- Vertical Submersible Pumps
- Vertical Pre-Engineered Booster Pumps
- Industrial Sump Pumps
- Horizontal Split Case Single Stage Pumps
- Horizontal Split Case Multi-stage Pumps
- ANSI B731 Pumps
- Heavy Duty, Industrial, Paper Stock, Slurry Pumps
- Self-Priming Industrial Pumps
- General Purpose End Suction Pumps
- Modular Multi-stage Pumps
- Hydroconstant Variable Speed Pump Drives
- General Purpose In-Line Centrifugal Pumps
- Vertical Enclosed Shaft Sump Pumps
- Vertical Shaft Sump Pumps
- Vertical Enclosed Shaft Sewage Pumps
- Submersible Sewage Pumps
- Flush-Kleen Clog Sewage Systems
- Sealtrode Floatless Pump Controllers
- Peerless Package Pumping Systems
- Peerless HC Plus System

Fire Pumps

- Vertical Fire Pumps UL Listed, ULC Listed and FM Approved
 - Capacity: 250 to 5,000 GPM
 - Head: 92 to 1,176 Feet
- Horizontal Fire Pumps, UL Listed, ULC Listed and FM Approved
 - Capacity: 250 to 5,000 GPM
 - Head: 92 to 1,492 Feet
- In-Line Fire Pumps, UL Listed and ULC Listed
 - Capacity: 50 to 750 GPM
 - Head: UP to 406 Feet
- End Suction Fire Pumps, UL Listed and FM Approved
 - Capacity: Up to 1,500 GPM
 - Head: Up to 367 Feet

At Godwins we understand the importance of quality and reliability and give a firm commitment to our customers, by utilising modern machinery and the latest technology, that products manufactured and supplied by our company will be of the highest possible standards attainable.

● **OVER 120 YEARS OF QUALITY AND RELIABILITY**

● **LPC, NFPA AND UL / FM STANDARDS**

● **CUSTOM-BUILT SYSTEMS**

● **PACKAGE PUMP HOUSES**

● **PRODUCT APPLICATIONS**

FEATURED PRODUCTS

Dri - Prime Pumps

- General Purpose, Solids Handling Godwin Dri-Prime Pumps.
- High Head and Jetting Dri-Prime Pumps.
- Extra High Head Pumps.
- Heidra Hydraulic Submersible Pumps.
- Godwin Wellpoint Dewatering Systems.

- Capacities: Up to 2600 m³/hr.
- Discharge Heads: Up to 185 meters.

ET Series Pumps

- Capacities: Up to 550 m³/hr.
- Discharge Heads: Up to 50 meters.

Iso Flow Pumps

- Capacities: Up to 1300 m³/hr.
- Discharge Heads: Up to 165 meters.

RPV Pumps

- Capacities: Up to 60 m³/hr.
- Discharge Heads: Up to 240 meters.

Submersible Pumps

- Capacities: Up to 60 m³/hr.
- Discharge Heads: Up to 290 meters.

Booster Sets

- Capacities: To suit plant requirements.
- Discharge Heads: Up to 200 meters.

Fire Pumps

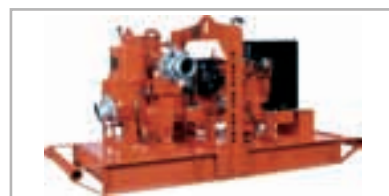

Individual or fully packaged systems for Sprinkler, Hydrant and Hose Reel applications can be supplied to satisfy the most sophisticated demands. Godwins are an approved supplier of LPCB specification fire pumps meeting their latest design, rules and regulations. We can also supply equipment to meet NFPA 20 (UL / FM) requirements.

Our comprehensive range of ISO and Split Case design pumps can handle,

- Flows: Up to 5000 U.S.G.P.M.
- Pressures of 16 Bar

Materials of construction are specified to suit individual applications with cast iron, stainless steel or bronze being available. All units are fully tested prior to despatch and facilities are available for customer's witness testing at the factory. All major international diesel engines and electric motors are available for use as the prime mover.

The Godwin approach is to build fire pump sets to suit the customer's exact specification. Flexibility in our design and manufacturing facilities ensure this.

High Pressure Centrifugal, Submersible,
Booster Sets, Sewage Sump Pumps

Established since 1919, Biral operates its own branches in Germany & Netherlands and having Headquarter in Munsingen, Switzerland. Biral is capable of reaching every market in the world from its wide distribution network. Biral is a member of Grundfos Holding Switzerland. The Biral products are sold exclusively under the label of Biral. Biral Pumps fulfill the highest requirement concerning function and quality. With in the Grundfos Group, the Biral brand occupies a top ranking.

● WATER SUPPLY SYSTEMS

● PRESSURE BOOSTER SYSTEMS

WASTEWATER & SEWAGE SYSTEMS

● HEATING & AIR-CONDITIONING SYSTEMS

- ISO Certified Manufacturing
- One Year Warranty for all Biral Products
- Tailor Made Solutions

● PRODUCT APPLICATIONS

- BUILDING SERVICE
- IRRIGATION
- WATER TRANSPORT
- WATER TREATMENT
- SEWAGE TREATMENT PLANTS
- MUNICIPAL & DOMESTIC SEWAGE & WASTE WATER
- SEAWATER DESALINATION
- INDUSTRIAL APPLICATIONS

FEATURED PRODUCTS

HVAC Products

- Heating Circulation Pumps
MX / M / MD
LX / LXD
HX / HXD
MXE / LXE / HXE / LXC / HXC / LC
- Hot Water Circulation Pumps
WX / W
EBZ - V (Inline Pumps)
EBZ - E

Vertical Multistage Pumps

- HP
- HPC
- HP - E / HPC - E (Speed Control)

Transfer & Booster Systems

- Based on HP / HPC / HPE Pumps

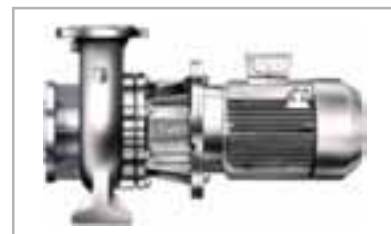

Range:
Upto 700 m³/hr Flow & 240 m Head
2 to 6 Pumps Coupled in Parallel
Individual Speed Control on all Pumps
Or only one or two pumps with speed control

MultiStage, Horizontal Centrifugal Pumps

- Wide range of Commercial & Industrial Application

Range:
Upto 14 m³/hr Flow & 55 m Head
Available in 12 different sizes

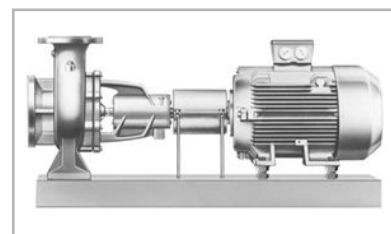

End - Suction Pumps

- NT Series (Long Coupled)
For Large Volume Pumping
More than 500 different variations pumps

Range:
Upto 2000 m³/hr Flow & 55 m Head

- NB Series (Close Coupled)
For Large Volume Pumping
More than 150 different variations pumps

Range:
Upto 400 m³/hr Flow & 100 m Head

MultiStage Submersible Pumps

- SUB 4, 6, 8-12"

Range:
Upto 400 m³/hr Flow & 250 m Head

Drainage Pumps

- Birox 80, 90, 100, 150, 200
(Available in 5 sizes)

Range:
Upto 34 m³/hr Flow & 13 m Head

Effluent Wastewater Pumps

- ANE, ANW, ANM
Free passage of Solids upto 35mm
Available in 30 Flow Sizes

Range:
Upto 40 m³/hr Flow & 16 m Head

Sewage Pumps

- FEC, FMC, FWC
Free passage of Solids upto 100mm

Range:
Upto 1800 m³/hr Flow & 65 m Head

Fire Hose Reels & Cabinets,
Fire Extinguishers, Offshore Products

NOHA NORWAY AS was founded in 1924 and has grown to become world leading manufacturer of fire hose reels and cabinets. NOHA started manufacturing hose reels early in the 1950 and has since focused on developing solutions and extending the product range to cover all fire fighting equipments for the residential and commercial market.

- **EXTENSIVE RANGE OF CERTIFIED QUALITY PRODUCTS**

- **CUSTOM MADE SOLUTIONS**

Fire Fighting Equipment &
Engineered Systems

SRI was established in 1974. It is wholly owned by SRI BERHAD which is listed in the Kuala Lumpur Stock Exchange. It is committed to providing the most comprehensive and reliable fire fighting equipment and services to protect lives and properties. Our customers are assured of the best from design, manufacturing to delivery, installation and service.

SRI's full range of fire fighting products are manufactured to international standards such as British standards (BS); European standards (EN); Australian standards (AS); Singapore standards (PSB); Underwriter Laboratories standards (UL); and Malaysian standards (MS).

● **ESTABLISHED IN 1974**

● **STATE OF THE ART MANUFACTURING FACILITY**

● **MANUFACTURING AS PER INTERNATIONAL STANDARDS**

● **ISO 9002 CERTIFIED COMPANY**

● **PRODUCT APPLICATIONS**

- OIL & GAS SECTOR
- POWER PLANTS
- FERTILIZER & PETROCHEMICALS
- HIGH RISE BUILDINGS, HOTELS, SHOPPING MALLS AND WARE HOUSES
- AIRPORTS AND SEA PORTS
- INDUSTRIAL ZONES (TEXTILES, PHARMACEUTICALS, CHEMICAL, LEATHER, FOOD, AUTOMOBILES AND ENGINEERING)

- Two Way Breeching Inlet
- Four Way Breeching Inlet

Pumps

- End Suction Pump Set
- Horizontal Split Case
- Vertical Multistage
- Vertical Turbine

Founded in 1992 FlexHead Industries is dedicated to providing safe leading edge technologies that promote increased installation and maintenance of automatic sprinkler systems. These systems reduce installation, inspection, and relocation costs to allow end-users cost effective means to be completely protected and code compliant, by constantly improving and developing systems to facilitate sprinkler installation.

FlexHead Industries manufactures and distributes products that are Factory Mutual Approved as well as UL listed flexible fire protection systems, which are produced in an FM audited facility.

- **FACTORY MUTUAL APPROVED AND UL LISTED**
- **COST-SAVING PRE-ASSEMBLY**
- **SOILD CONSTRUCTION**
- **UNMATCHED FLEXIBILITY**
- **COST EFFECTIVE CODE COMPLIANCE**

FEATURED PRODUCTS

Commercial Ceiling Models

- (2024) For use with 2x2 or 2x4 suspended ceiling grid w/ 2' SS hose.
- (2036) For use with 2x2 or 2x4 suspended ceiling grid w/ 3' SS hose.
- (2048) For use with 2x2 or 2x4 suspended ceiling grid w/ 4' SS hose.
- (2060) For use with 2x2 or 2x4 suspended ceiling grid w/ 5' SS hose.
- (2072) For use with 2x2 or 2x4 suspended ceiling grid w/ 6' SS hose.

10 Series - FRP or Phenolic Ductwork

- (1024) For use with FRP or phenolic duct w/ 2' SS hose.
- (1036) For use with FRP or phenolic duct w/ 3' SS hose.
- (1048) For use with FRP or phenolic duct w/ 4' SS hose.

11 Series - SS or Galvanized Ductwork

- (1124) For use with lines SS or galvanized duct w/ 2' SS hose.
- (1136) For use with lines SS or galvanized duct w/ 3' SS hose.
- (1148) For use with lines SS or galvanized duct w/ 4' SS hose.

12 Series - Polypropylene Ductwork

- (1224) For use with PP duct w/ 2' SS hose.
- (1236) For use with PP duct w/ 3' SS hose.
- (1248) For use with PP duct w/ 4' SS hose.

13 Series - PVC Ductwork

- (1324) For use with PVC duct w/ 2' SS hose.
- (1336) For use with PVC duct w/ 3' SS hose.
- (1348) For use with PVC duct w/ 4' SS hose.

Cleanroom Ceiling Models

- (ICRD 0072) For use with DAW Technology grid, 6' SS hose.
- (ICRW0072) For use with M&W Zander grid, 6' SS hose.
- (ICRHA 0072) For use with HuntAir grid, 6' SS hose.
- (ICRC 0072) For use with Clestra grid, 6' SS hose.
- (ICRG 0072) For use with Gordon grid, 6' SS hose.
- (ICRHC 0072) For use with Hepa Corp. grid, 6' SS hose.
- (ICRL 0072) For use with L and K Engineering, 6' SS hose.
- (ICRF 0072) For use with Flanders grid, 6' SS hose.
- (ICRFH 0072) For use with FH Chase grid, 6' SS hose.
- (ICRCS 0072) For use with Channel Systems grid, 6' SS hose.
- (ICRES 0072) For use with Engineered Solutions grid, 6' SS hose.
- (ICRSS 0040) For use with Shinsung Engineering grid, 40' SS hose.
- (ICRSS 0060) For use with Shinsung Engineering grid, 60' SS hose.

Fire Fighting Foams & Concentrates,

- Model 1844CTS (Media).
- Model 1856CN (Record).
- Model 1856CTS (Media).

Insulated Vault and File Room Doors

- Vault and File Room Doors in several colors.
- All doors undergo rigorous testing by Underwriters Laboratories.
- Every door performs at a level which exceeds its UL Standard 155 required rating.
- Standard key Change Combination Lock as well as two UL Standard 140 Re-Locking Device Mechanisms.
- File or Vault Room Door will give the customers the same assurance that banks, schools, hospitals and many residential customers have relied on for over 130 years of protecting their valuables from fire and theft.
- Optional Automatic door closer uses an electromagnetic system that releases the door when the sensor detects either heat or smoke.

Data Fortress

- Data Fortress is made to house your Back up systems.
- Work with Tape or Disc Drives.
- Equipped with Necessary Cabling Tailored to your system.
- Patented System Carries UL 72 Fire & Impact Resistance Rating.

Media Cooler

- Larger Storage Capacity.
- More Economical.
- More Compact.
- Simple to Use.
- More Theft Resistant

Flow and Advisory Switch

Established in 1898, Potter Electric Signal Company has earned a reputation worldwide as an elite provider of goods and services. The Potter brand name and our logo have become synonymous with quality products and service. Products identified by assure the purchaser they are receiving the highest level of protection available in the industry.

Watts Water Technology is on the global market with several companies, each with their own history and product line. Within their diversity the companies of the Watts Water Technologies Group share the object of an intense technology development. Each product, designed for heating, plumbing, water protection and control represents an optimum example of synergy between technology, innovation and protection of the environment.

- **ESTABLISHED IN 1874**
- **26 COMPANIES, 20 SALES OFFICES & PRODUCTION CENTERS WORLD WIDE**
- **ISO 9001:2000 (VISION 2000) CERTIFICATION**
- **PRODUCTS FOR DOMESTIC, COMMERCIAL & INDUSTRIAL USE**
- **INNOVATE & COMPLETE RANGE OF PRODUCTS**
- **WATER & ENERGY CONSERVATION AND SAVINGS**
- **COMFORT OF USE**
- **SAFETY & SECURITY**
- **SINGLE SOURCE OF HVAC VALVES & CONTROLS**
- **PRODUCT APPLICATIONS**

Bolts, Nuts, Washers, Screws,
Anchors, Clamps, Support and
Expansion Assemblies

Established in 1967 CIVITAS is one of the first Bolt Manufacturers of Turkey. Since 1967 the company has continuously expanded its product range and today manufactures Bolts, Nuts, Washers, Screws, Anchors, Clamps, Support & Expansion Assemblies, Anchorages and Fitting Elements in different alternatives like "Iron", "Steel" and "Stainless Steel" - inox in various sizes.

CIVITAS produces all of its brands in compliance with TSE, DIN, EN, ISO, ANSI, IFI World Standards. With TSEK, Production Compliance, ISO 9001:2000, GOST Certificates and Capacity Report, the company meets all the needs and wants of its valuable customers, as well as the technical requirements.

- ESTABLISHED SINCE 1967
- IRON, STEEL & STAINLESS STEEL PRODUCTS
- CONTINUOUS DEVELOPMENT & CUSTOMER SATISFACTION
- COMPLIANCE WITH TSE, DIN, EN ISO, ANSI, IFI WORLD STANDARDS
- PRODUCT APPLICATIONS

OIL & GAS SECTOR

POWER PLANTS

CONSTRUCTION INDUSTRY, HIGH
RISE BUILDINGS, HOTELS, SHOPPING MALLS
AND WARE HOUSES

AIRPORTS AND SEA PORTS

INDUSTRIAL ZONES (TEXTILES,
PHARMACEUTICALS, CHEMICAL, LEATHER,
FOOD, AUTOMOBILES AND ENGINEERING)

FEATURED PRODUCTS

Bolts

- Hexagon head bolts
- Hexagon head screws, fully threaded
- Hexagon socket head cap screws
- Hexagon socket countersunk head screws
- Mushroom head square neck bolts
- High strength hexagon head bolts for structural steel bolting

Nuts & Washers

- Hexagon nuts
- Hexagon nuts for high-strength structural bolting
- Plain washers - metric
- Plain washers - whitworth
- Spring lock washers - metric
- Spring lock washers - whitworth
- Round washers for high - strength structural steel bolting

Screws

- Slotted cheese head screws
- Slotted countersunk flat head screws
- Pan head screws with type "H" cross recess
- Countersunk flat head screws with type "H" cross recess
- Chipboard screws
- Self drilling screws
- Cheese head self drilling screws
- Countersunk head self drilling screws
- Hexagon washer head self drilling screws
- Boggle head drywall self drilling screws
- Boggle head drywall screws (fine & coarse)
- Hexagon wood screws

Anchors

- Sleeve anchor
- Steel plug drop - in anchor
- Pipe anchor with bolt
- Draw-in anchor (with hexagon conic nut)
- Draw-in anchor (with round conic nut)
- Monoclip anchor
- Heavy duty anchor
- Hook suspension anchor - with sleeve
- Hook suspension anchor - with pipe
- Ceiling anchor (with "I" part)
- Plastic anchor (nylon plug anchor)
- Chemical anchor (hammer in capsule)
- Chemical anchor (spin in capsule)
- Chemical anchor threads - rods
- Chemical cartridge
- Cartridge gun

Clamps

- Wood screw adapter
- Standard pipe clamp with nut & rubber profile
- Standard pipe clamp with nut, without rubber profile
- Standard wood screw pipe clamp with rubber profile
- Standard wood screw pipe clamp without rubber profile
- Long wood screw pipe clamp with rubber profile
- Long wood screw pipe clamp without rubber profile
- Pipe clamp for sprinkler application
- Pvc clamp
- Heavy duty clamp with rubber profile
- Heavy duty clamp without rubber profile
- Heavy duty clamp with nut & rubber profile
- Heavy duty clamp with nut, without rubber profile

FEATURED PRODUCTS

Three Way Protection

This unique chute is constructed by combining three separate layers of specialized materials that protect users from flame, heat and smoke.

Inner Layer

The inner layer is made up of Twaron and Flexible Rohvyl yarn. This hybrid fabric is extremely strong, very flexible and is also of heat resistant. The inner layer bears the load of the total chute.

Middle Layer

The centered layer is made up of a very elastic 'spun cell' - made of lycra and Modlacrylic fibres and can easily increase three times in size.

Outer Layer

The outer layer of the chute, made of flexible glass fibre, provides protection against fire, heat and smoke and can resist temperatures of up to 800°C.

Types Of Escape Chutes

Single Entry Escape Chute

This single entry chute installed in old or existing building whereby there is no possibility of incorporating the "Multi-Entry" chute. Each chute installation at window, balcony, rooftop, best serves the occupants of that particular floor. This 3-way protection protects the evacuees from fire, heat, and smoke during evacuation. Available in a maximum length of 200 m. The longest such chute in used is 146 m in Bangkok.

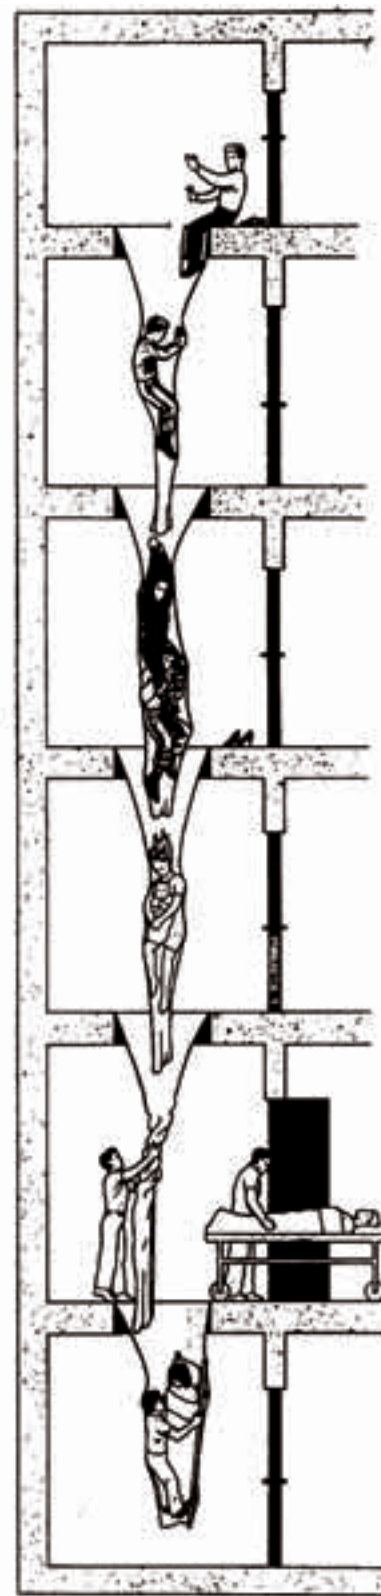

Movable Escape Chute

This multiple escape chute system is installed inside a protected vertical shaft enclosure. This interior chute is constructed of 2 layers. The chute is installed in segment at each floor level. It has no length and height constraints. The longest one in use is 165 m at the Nation Tower, Bangkok, Thailand.

Portable Entry Escape Chute

Escape Chutes can be fitted to Fire Department Aerial Ladders and Snorkel Platforms, this will increase the rate of evacuation thus reducing the risk exposure of the fireman. With additional equipment, the portable platform can also be mounted on the parapet of the balcony and window. The chute is constructed of 3 layers, this 3-way protection protect the evacuees from flame, heat, and smoke during rescue operation.

The longest one in use is 100m on Bronto Skylift, operating in Moscow.

In many ways, INGSTROM Escape Chute system is a universally designed product that is accessible and usable by the greatest number of people, regardless of their capabilities. It can be deployed inside or on the exterior walls of the building, will operate even if the electrical supply to a building is lost during a fire, provide escape solutions for high rise buildings under fire (or damaged by explosions) whose aim is to bypass impassable floors or blocked stairways. These would allow people trapped in higher elevations to escape safely to the street.

- **MORE THAN 25 YEARS OF EXPERIENCE**
- **SPECIAL MADE MATERIALS**
- **FAST AND EFFICIENT ESCAPE SYSTEM**
- **FROM 2 STORY UPWARD TO HIGH RISE**
- **THREE WAY PROTECTION**
- **OVER 5000 INSTALLATIONS OF ESCAPE CHUTES WORLDWIDE**
- **PRODUCT APPLICATIONS**

FEATURED PRODUCTS

Fittings

- Wrot and cast copper pressure fittings
- Wrot and cast copper drainage fittings
- Wrot copper PEXlink fittings
- Cast copper alloy flared fittings
- Cast copper alloy flanges
- ABS and PVC DWV fittings
- Schedule 40 PVC pressure fittings
- CPVC CTS fittings
- CPVC CTS-to-metal transition fittings
- Schedule 80 PVC and CPVC systems
- CPVC metric piping systems.

Valves & Actuation

- Pressure-rated bronze, iron and alloy-iron gate, globe and check valves
- Pressure rated bronze ball valves
- Boiler specialty valves
- Commercial and industrial butterfly valves
- Circuit balancing valves
- Carbon and stainless stell ball valves
- ANSI flanged steel ball valves
- High performance butterfly valves
- Pneumatic and electric actuators and controls
- Grooved ball and butterfly valves
- UL / FM fire protection valves
- Low-pressure gate, globe, check and ball valves
- Bronze specialty valves
- Frostproof sillcocks
- MSS specification valves
- PVC ball valves
- CPVC CTS ball valves.

Chemtrol

- Thermoplastic pipe, valves and fittings in PVC, Corzan CPVC, polypropylene and PVDF Kynar
- Chem-Aire thermoplastic compressed air piping systems
- Pneumatic and electric actuation systems.

Tolco

NIBCO now offers complete support with its newest addition of TOLCO brand piping solutions including :

- Pipe attachments
- Structural attachments
- Pipe rollers
- Threaded products and accessories
- Seismic components
- Vibration isolation
- Standard and specialty supports
- TOL - Strut channel and components.
